COMMITTEE UPDATES

Facilities Update - Craig Deason, Assistant Superintendent of Operations & Facilities, reported that we are continuing to move forward on a few facilities items. Full day kindergarten items are on the agenda and if approved tonight we will be looking at geotechnical and department of toxic substance control consulting for the soils where the district will be putting portables at Oak Hill. The CTE applications were submitted today for funding for all four Career Technical Ed programs. We would not have to take the funding, but we are applying because there are very short timelines for this project; we need to be ready in case any of our projects scores are approved in June. The school site in the John Moyer construction area, there is also an agenda item tonight for the CEQA consultant to continue to move forward. We received our appraisal today; will get info by the next meeting. The purchase agreement is being worked on with John Moyer Construction. Trustee Anderson asked which street the school site would be on. Craig noted that he thought the streets were Vista Grande and SwallowTail.

COMMENTS FROM THE AUDIENCE REGARDING ITEMS NOT ON THE AGENDA

An Account Representative from Kaiser Permanente noted that Kaiser is here and available during the coronavirus. He brought information to give to Mr. Loehr to share with employees.

BOARD/SUPERINTENDENT REPORTS

BOARD/SUPERINTENDENT REPORTS (continued)

Mr. Hunt

- thanked Scott Loehr and David Grimes for the amazing work they have been doing around this coronavirus. The communications they have put out to staff and parents have been top notch. Seeing what is going on in other districts, the example they have set is above and beyond what needed to be done; so well and thought out. He noted that he appreciated all of their work. Trustees Pope, Anderson, and J'Beily all agreed with Trustee Hunt's comments.

Mr. J'Beily - had nothing to report

Mr. Loehr

- thanked the Board for their kind words. He noted that it has been a team effort by Cabinet. Cabinet and the Site administrators have all come together to do anything they can to help. We have people from various departments throughout the district that have been working tirelessly. Other folks from throughout the district have asked what they can do to help. He noted that he appreciates the Board's support; without their leadership we would not be able to do this.

Mr. Wilson

BUSINESS ITEMS

A. APPROVED - Auditor Selection for Fiscal Years 2019/20, 2020/21, 2021/22

Lisa Coronado, Director of Fiscal Services, noted that we have had a great relationship with our auditor. We have passed the 3 year mark. We have decided not to go out this year for an RFP and keep the same auditing company, and can do so as long as it's a different partner who is overseeing the audit. The district would go out for an RFP next time. Trustee Wilson asked what the rules are for rotating around. Lisa noted that she believes it has to be changed every 5 years, but we do it every 3 years. Mr. Loehr noted that we have used other companies for as long as 9 years, but they would have to rotate the assigned auditors in order to stay with that company.

Motion: J'Beily

Ayes: Pope, Anderson, Hunt, J'Beily, Wilson

B. APPROVED - Second Interim Report for Fiscal Year 2019-20

Lisa Coronado, Director of Fiscal Services, noted that this report reflects business activities from July 1 through January 31. A lot has happened since January 31 so as we go through this, she expects the multi year projections to end up looking more favorable; there are a lot less costs because of shutting down. She noted that it is a terrible reason for shutting down, but we are going to have benefits because of it (less expenses on fuel, utilities, etc.). Mrs. Coronado noted that the Governor's January budget proposal came out and the areas that affect Center are: in 2021 the COLA was lowered from 3% to 2.29% so revenue projections had to come down because of that, there is no proposal for the future to add additional pension relief but this can change, and special ed has increased in the base rate. She noted that ADA is typically runs July 1 through the middle of April, with it being reported in May, but with the current circumstances the cutoff is now February 29th. This could benefit our district; we had higher months in the beginning of the year, and then was declining. Trustee Pope asked what our enrollment is as of today. Lisa noted that she didn't know right off hand. As of January 31 it was down to 4,023. Looking at the revenue over the years, it is increasing this year because we received the preschool money. That money is unrestricted but it is being used for already existing preschool costs and we are reducing the contribution amount. In out years the revenue has to be reduced because of the reduction in COLA. The expenditures and contributions in 19/20 have gone up about 1%, and there's nothing specific that made it go up. In out years the expenditures were reduced; she has removed the positions at MHS and Riles MS that lost funding. This year we are not deficit spending with ongoing funds, but next year we will be deficit spending with ongoing funds. Because of attrition with some retirements, that should become a positive number. We have about 20 positions to fill. In

BUSINESS ITEMS (continued)

21/22 we have always looked positive. The ending fund balance for 19/20 will be about \$1 million left over, unaccounted for. In 20/21 that goes down to about \$800,000 because we will be deficit spending, and then the year after that because of a surplus it will go back up to about \$1.2 million. However, something to note is that in 21/22 there will be another curriculum adoption that will have to take place again and we would not have enough money for that, so we hope that more revenue comes in. Se also noted that Fund 17 has \$2.4 million. In the trust and employment benefits, there is \$300,000 in the trust and \$600,000 in our account. Trustee Hunt asked about the operating costs over the next 2-1/2 to 3 months (utilities, fuel, etc.), if she knew what those amounts would look like. She noted that she had not had time to look at those things, but when it slows down she would like to look at that and can share that information. She noted that there are some contractors that the district will still have to pay. Trustee Wilson asked what she meant about no pension relief. Se noted that the CalSTRS and CalPERS had made contributions so that we didn't have to pay as much, but that is not going to happen in the future. Mr. Loehr noted that Trustee Hunt had asked for scenarios of what a 1%, 1-1/2%, and 2% increase for the employee costs would look like. We planned to have the draft tonight at the meeting but have been busy and hope to bring those numbers next month.

A. RATIFIED – Resolution #13/2019-20: Emergency Resolution Delegating Authority to Take Necessary Action to Protect Students and Staff from the Spread of Corona virus (COVID-19)

Trustee Pope asked if it was related to the coronavirus and Center Unified. Mr. Loehr noted that it is in regards to the closure of the school and district, and is delegating authority in an emergency basis. Board policy already states that the Superintendent can do this and the have it ratified by the Board. This resolution would finalize that action. It also states that if something was to come up there would be authority to take action related to this with Board approval.

SUBJECT: Waiver of some graduation requirements during school closure

As a result of the school closure due to the COVID 19 pandemic, the Department of Curriculum and Instruction is asking that the Board approve a waiver of some graduation requirements for this year's seniors. The waivers would be handled as follows:

- Waivers would apply to this year's senior class only.

- Waivers would be granted on a case by case basis by a committee including at least the principal of Center High School or McClellan High School and the Director of Curriculum and Instruction who will serve as the administrative designee of the Superintendent.

CONSENT AGENDA

AGREEMENT FORM

THIS AGREEMENT ("Agreement" or "Contract"), entered into this 15th day of April, 2019 in the County of Sacramento of the State of California, by and between the Center Joint Unified School District, hereinafter called the "Owner" or the "District", and Astro Paving, Inc., hereinafter called the "Contractor".

WITNESSETH that the Owner and the Contractor for the consideration stated herein agree as follows:

ARTICLE 1 - SCOPE OF WORK: The Contractor shall furnish all labor, materials, equipment, tools, and utility and transportation services, and perform and complete all work required in connection with North Country Seal and Stripe Project ("Project") in strict accordance with the Contract Documents enumerated in Article 8 below. The Contractor shall be liable to the District for any damages arising as a result of a failure to comply with that obligation, and the Contractor shall not be excused with respect to any failure to so comply by an act or omission of the Architect, Engineer, Inspector, Division of the State Architect (DSA), or representative of any of them, unless such act or omission actually prevents the Contractor from fully complying with the Contract Documents and the Contractor protests, in accordance with the Contract Documents, that the act or omission is preventing the Contractor from fully complying with the Contract Documents. Such protest shall not be effective unless reduced to writing and filed with the District office within seven (7) days of the date of occurrence of such act or omission preventing the Contractor from fully complying with the Contract Documents.

ARTICLE 2 - TIME OF COMPLETION: The Owner may give notice to proceed within ninety (90) days of the award of the bid by the Owner. Once the Contractor has received a notice to proceed, the Contractor shall reach Final Completion of the Project within thirty (30) calendar days from receipt of the Notice to Proceed. This shall be called Contract Time. It is expressly understood that time is of the essence.

Contractor has thoroughly studied the Project and has satisfied itself that the time period for this Project is adequate for the timely and proper completion of the Project within the Contract time.

In the event that the Owner desires to postpone giving the notice to proceed beyond this ninety (90) day period, it is expressly understood that with reasonable notice to the Contractor, giving the notice to proceed may be postponed by the Owner. It is further expressly understood by the Contractor, that the Contractor shall not be entitled to any claim of additional compensation as a result of the Owner's postponement of giving the notice to proceed.

If the Contractor believes that a postponement will cause hardship to it, the Contractor may terminate the Contract with written notice to the Owner within ten (10) days after receipt by the Contractor of the Owner's notice of postponement. It is further understood by the Contractor that in the event that the Contractor terminates the Contract as a result of postponement by the Owner, the Owner shall only be obligated to pay the Contractor for the work performed by the Contractor at the time of notification of postponement. Should the Contractor terminate the Contract as a result of a notice of postponement, the District shall have the authority to award the Contract to the next lowest responsible bidder.

ARTICLE 3 - LIQUIDATED DAMAGES: It being impracticable and infeasible to determine the amount of actual damage, it is agreed that the Contractor will pay the Owner the sum of zero Dollars (\$0) per calendar day for each and every day of delay beyond the Contract Time set forth in Article 2 of this Agreement as liquidated damages and not as a penalty or forfeiture. In the event Liquidated Damages are not paid, the Contractor further agrees that the Owner may deduct such amount thereof from any money due or that may become due the Contractor under the Contract. This Article shall not be construed as preventing the Owner from the recovery of damages (actual or other) under the Contract Documents.

ARTICLE 4 - CONTRACT PRICE:

4.1 **Contract Price.** The Owner shall pay to the Contractor as full consideration for the faithful performance of the Contract, subject to any additions or deductions as provided in the Contract Documents, the sum of TWENTY-NINE THOUSAND, NINE HUNDRED TWENTY-SIX DOLLARS (\$29,926), said sum being the total amount stipulated in the Bid Contractor submitted. Payment shall be made as set forth herein.

Should any Change Order result in an increase in the Contract Price, the cost of such Change Order shall be agreed to in advance by the Contractor and the Owner, subject to the monetary limitations set forth in Public Contract Code Section 20118.4. In the event that the Contractor proceeds with a Change in work without an agreement between the Owner and Contractor regarding the cost of a Change Order, the Contractor waives any Claim of additional compensation for such additional work.

4.2 **Warranty of Title.** The Contractor warrants title to all work. The Contractor further warrants that all work is free and clear of liens, claims, security interests, or encumbrances in favor of the Contractor, Subcontractors, material and

If a lien or stop notice of any nature should at any time be filed against the Project or any Owner property, by any entity which has supplied material or services at the request of the Contractor, Contractor shall promptly, on demand by Owner and at Contractor's and own expense, take any and all action necessary to cause any such lien or stop notice to be released or discharged immediately. If the Contractor fails to furnish to the Owner within five (5) calendar days after demand by the Owner, satisfactory evidence that a lien or stop notice has been so released, discharged, or secured, then Owner may discharge such indebtedness and deduct the amount required, together with any and all losses, costs, damages, and attorney's fees and expense incurred or suffered by Owner from any sum payable to Contractor under the Contract.

4.3 **Payment Applications.** On or before the fifth (5th) day of each calendar month during the progress of the work, Contractor shall submit to the Architect (or District if there is no Architect), an itemized application for payment for all work completed. The Owner shall adjust the total Contract price by reducing the amount thereof by the cost of making good such deficiencies. If Owner deems it inexpedient to correct work which is damaged, defective, or not done in accordance with Contract provisions, an equitable reduction in the Contract price (of at least 150% of the estimated reasonable value of the nonconforming work) shall be made.

ARTICLE 5 - HOLD HARMLESS/ INDEMNITY: Contractor shall defend, indemnify and hold harmless Owner, Architect, Inspector, the State of California and their officers, employees, agents and independent contractors from all liabilities, claims, actions, liens, judgments, demands, damages, losses, costs or expenses of any kind arising from death, personal injury, property damage or other cause based or asserted upon any act, omission, or breach connected with or arising from the progress of work or performance of service under this Agreement or the Contract Documents. Compliance by Contractor with the requirement to carry insurance and furnish certificates or policies evidencing the same shall not relieve the Contractor from liability assumed under any provision of the Contract Documents, including, without limitation, the obligation to defend and indemnify the Owner and the Architect.

6.10 **Waiver of Subrogation.** Contractor waives (to the extent permitted by law) any right to recover against the Owner for damages to the work, any part thereof, or any and all claims arising by reason of any of the foregoing, but only to the extent that such damages and/or claims are covered by property insurance and only to the extent of such coverage (which shall exclude deductible amounts) by insurance actually carried by the Owner. The provisions of this section are intended to restrict each party to recovery against insurance carriers only to the extent of such coverage and waive fully and for the benefit of each, any rights and/or claims which might give rise to a right of subrogation in any insurance carrier. The Owner and the Contractor shall each obtain in all policies of insurance carried by either of them, a waiver by the insurance companies thereunder of all rights of recovery by way of subrogation for any damages or claims covered by the insurance.

6.11 **Performance and Payment Bond Requirements.** Prior to commencing any portion of the work, the Contractor shall furnish separate payment and performance bonds for its portion of the work which shall cover 100% faithful performance of and payment of all obligations arising under the Contract Documents and/or guaranteeing the payment in full of all claims for labor performed and materials supplied for the work. All bonds shall be provided by a corporate surety authorized and admitted to transact business in California as sureties. To the extent, if any, that the Contract Price is increased in accordance with the Contract Documents, the Contractor shall, upon request of the Owner, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the Owner. To the extent available, the bonds shall further provide that no change or alteration of the Contract Documents (including, without limitation, an increase in the Contract Price, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor will release the surety. If the Contractor fails to furnish the required bonds, the Owner may terminate the Contract for cause. Only bonds executed by admitted Surety insurers as defined in Code of Civil Procedure § 995.120 shall be accepted. Surety must be a California-admitted surety and listed by the U.S. Treasury with a bonding capacity in excess of the Project cost. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with § 995.660 of the California Code of Civil Procedure and proof of such is provided to the Owner.

ARTICLE 7 - PROVISIONS REQUIRED BY LAW: Each and every provision of law and clause required to be inserted in this Contract shall be deemed to be inserted herein, and this Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract shall forthwith be physically amended to make such insertion or correction.

10.1 Termination for Cause. The Owner may terminate the Contractor and/or this Contract for the following reasons:

If such costs exceed the unpaid balance, the Contractor shall pay the difference to the Owner. This payment obligation shall survive completion of the Contract.

10.5 Termination for Convenience. Owner may terminate the Contract upon five (5) calendar days of written notice to the Contractor and use any reasonable method the Owner deems expedient to complete the Project, including contracting with replacement contractor or contractors, if it is found that reasons beyond the control of either the Owner or Contractor make it impossible or against the Owner's interest to complete the work. In such a case, the Contractor shall have no claims against the Owner except: (1) the actual cost for labor, materials, and services performed and completed in accordance with the Contract Documents and approved by the District as documented through timesheets, invoices, receipts, or otherwise, and (2) ten percent (10%) profit and overhead of all remaining work as determined by the Owner, and (3) five percent (5%) termination cost of the total of item (2). PERFORMANCE BOND

(CALIFORNIA PUBLIC WORK)

KNOW ALL MEN BY THESE PRESENTS:

THAT WHEREAS, the CENTER JOINT UNIFIED SCHOOL DISTRICT (sometimes referred to hereinafter as "Obligee") has awarded to _____ (hereinafter designated as the "Principal" or "Contractor"), an agreement for the work described as follows: _____ (hereinafter referred to as the "Public Work"); and

WHEREAS, the work to be performed by the Contractor is more particularly set forth in that certain contract for said Public Work dated _____, (hereinafter referred to as the "Contract"), which Contract is incorporated herein by this reference; and

WHEREAS, the Contractor is required by said Contract to perform the terms thereof and to provide a bond both for the performance and guaranty thereof.

NOW, THEREFORE, we, _____, the undersigned Contractor, as Principal, and _____, a corporation organized and existing under the laws of the State of _____, and duly authorized to transact business under the laws of the State of California, as Surety, are held and firmly bound unto the CENTER JOINT UNIFIED SCHOOL DISTRICT in the sum of _____ Dollars (\$_____), said sum being not less than one hundred percent (100%) of the total amount payable by said Obligee under the terms of said Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT, if the bounded Contractor, his or her heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions, and agreements in said Contract and any alteration thereof made as therein provided, on his or her part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill guarantees of all materials and workmanship; and indemnify, defend and save harmless the Obligee, its officers and agents, as stipulated in said Contract, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

The Surety, for value received, hereby stipulates and agrees that it shall not be exonerated or released from the obligation of this bond (either by total exoneration or pro tanto) by any change, extension of time, alteration in or addition to the terms of the contract or to the work to be performed there under or the specifications accompanying the same, nor by any change or modification to any terms of payment or extension of time for any payment pertaining or relating to any scheme of work of improvement under the contract. Surety also stipulates and agrees that it shall not be exonerated or

released from the obligation of this bond (either by total exoneration or pro tanto) by any overpayment or underpayment by the Obligee that is based upon estimates approved by the Architect. The Surety stipulates and agrees that none of the aforementioned changes, modifications, alterations, additions, extension of time or actions shall in any way affect its obligation on this bond, and it does hereby waive notice of any such changes, modifications, alterations, additions or extension of time to the terms of the contract, or to the work, or the specifications as well notice of any other actions that result in the foregoing.

Whenever Principal shall be, and is declared by the Obligee to be, in default under the Contract, the Surety shall promptly either remedy the default, or shall promptly take over and complete the Contract through its agents or independent contractors, subject to acceptance and approval of such agents or independent contractors by Obligee as hereinafter set forth, in accordance with its terms and conditions and to pay and perform all obligations of Principal under the Contract, including, without limitation, all obligations with respect to warranties, guarantees and the payment of liquidated damages; or, at Obligee's sole discretion and election, Surety shall obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and upon determination by Obligee of the lowest responsible bidder, arrange for a contract between such bidder and the Obligee and make available as Work progresses (even though there should be a default or succession of defaults under the contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the "balance of the Contract Price" (as hereinafter defined), and to pay and perform all obligations of Principal under the Contract, including, without limitation, all obligations with respect to warranties, guarantees and the payment of liquidated damages. The term "balance of the Contract price," as used in this paragraph, shall mean the total amount payable to Principal by the Obligee under the Contract and any modifications thereto, less the amount previously paid by the Obligee to the Principal, less any withholdings by the Obligee allowed under the Contract. Obligee shall not be required or obligated to accept a tender of a completion contractor from the Surety.

Surety expressly agrees that the Obligee may reject any agent or contractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Principal. Unless otherwise agreed by Obligee, in its sole discretion, Surety shall not utilize Principal in completing the Contract nor shall Surety accept a bid from Principal for completion of the work in the event of default by the Principal.

No final settlement between the Obligee and the Contractor shall abridge the right of any beneficiary hereunder, whose claim may be unsatisfied.

The Surety shall remain responsible and liable for all patent and latent defects that arise out of or relate to the Contractor's failure and/or inability to properly complete the Public Work as required by the Contract and the Contract Documents. The obligation of the Surety hereunder shall continue so long as any obligation of the Contractor remains.

Contractor and Surety agree that if the Obligee is required to engage the services of an attorney in connection with enforcement of the bond, Contractor and Surety shall pay Obligee's reasonable attorneys' fees incurred, with or without suit, in addition to the above sum.

In the event suit is brought upon this bond by the Obligee and judgment is recovered, the Surety shall pay all costs incurred by the Obligee in such suit, including reasonable attorneys' fees to be fixed by the Court.

What will be graded:

- From April 13th on, teachers will continue to post assignments through Google Classroom with due dates. These assignments are expected to be turned in by the student, will be graded by the teacher, and will be placed in the AERIES grade book.
- While grades that decrease during this time will not be posted on student transcripts, they will be used for placement in Elective & Accelerated (math & English) courses for 8th & 9th grades.
- Specific Grading Policies for each school are in the table which follows.

Special Student Groups/Programs

Phase 3: April 13 until school campuses reopen for students

Special Education Students: Preschool through Grade 12+

- IEPs will be held in an online format when possible. Any IEP requiring assessment or other in-person meetings will be postponed until we return to school. Case managers will contact parents with information about meetings.
- Students will continue with the classes in which they were enrolled prior to school closure in mid-March.
- Instruction will be provided by their assigned teacher(s) through Google Classrooms.
- Teachers and service providers will use phone calls, email, Google Hangouts, Zoom, and/or other platforms to interact with students.
- Special Education teachers and paraeducators will provide assistance to students and consultation to teachers, focusing in particular on the provision of accommodations and modifications, to the greatest extent possible.
- Case managers will reach out to each student on their caseload at least once per week to check-in and assist with any issues the students are having and to work on individual IEP goals which were not otherwise addressed in Google Classroom assignments. These contacts can be through phone calls, email, Google Hangout Meet, Zoom, and other platforms. At the secondary level, this will take the place of Academic Lab C (Study Skills) courses.
- **At Riles Middle School & Center High:** Although students will remain in Corrective Reading (C.R.) courses and receive the grade they had at the end of the third quarter, Corrective Reading work will be discontinued. The C.R. program is not conducive to an online format. With the new daily distance learning schedule developed by WCRMS and CHS, C.R. teachers will facilitate other reading activities to share with students in C.R. classes.
- Speech/Language Services will resume in an online format using phone calls, Google Hangout, or other platforms.
- Occupational Therapy (OT), Physical Therapy (PT), and ERMHS Counseling and/or Behavior Intervention Services will resume using a teletherapy format via phone calls, emails, Google Hangouts Meet, Zoom, or other platforms.
- Consultation services (Orthopedic Impairment, Deaf/Hard of Hearing, Vision Impairment) will resume via contact by consulting provider with teachers and service providers who are instructing/serving the student; when needed, these providers will consult with parents/guardians and students themselves. Means of consultation may include phone calls, emails, Google Hangouts Meet, Zoom, or other platforms.
- More information to follow to parents/guardians of Special Education students via provision of Prior Written Notice by 4/3/2020 delivered electronically.

Home/Hospital Instruction (HHI) Students:

- Students who, prior to enrollment in HHI, had been on class lists of CJUSD teachers will access new instruction via their former teachers' Google Classrooms.
- Students who, prior to current year's enrollment in HHI, had NOT been on class lists of CJUSD teachers will continue to receive direct instruction from their HHI teachers via phone calls, email, Google Classroom, Google Hangouts Meet, Zoom, and other platforms.
- HHI teachers will provide the agreed upon individualized instruction and support via phone calls, emails, Google Hangouts, Zoom, or other platforms.

Independent Study:

Continuation of the program as it was prior to mid-March school closure with the exception that meetings with the teacher will be via online platforms or phone calls.

Credit Recovery:

Continuation of the program as it was prior to mid-March school closure with same due dates.

SUBJECT: Residential & Commercial/Industrial Development School Fee Justification Study and Resolution #14/2019-20: Resolution of the Governing Board of the Center Joint Unified School District to Increase Statutory School Fees Imposed on Residential and Commercial/Industrial Development Projects Pursuant to Education Code Section 17620 (Level 1 Fees)

The School Fee Justification Study for Residential and Commercial/Industrial Development was prepared by Caldwell Flores Winters in March 2020. This study finds that the analysis to determine the imposition of fees pursuant to Government Code Section 65995 indicates that the Center Joint Unified School District is justified to impose a fee of \$4.08 per square foot of residential construction and \$0.66 per square foot of commercial/industrial development with the exception of self-storage development which should be imposed a fee not to exceed \$0.11.

RECOMMENDATION: The CJUSD Board of Trustees approve the Residential & Commercial/Industrial Development School Fee Justification Study and Resolution #14/2019-20: Resolution of the Governing Board of the Center Joint Unified School District to Increase Statutory School Fees Imposed on Residential and Commercial/Industrial Development Projects Pursuant to Education Code Section 17620 (Level 1 Fees).

CENTER JOINT UNIFIED SCHOOL DISTRICT
AGENDA DESCRIPTION REGARDING
ADOPTING OF LEVEL 1 SCHOOL FEE INCREASE

I. Public Hearing Relative To The Consideration And Adoption Of A Resolution To Increase Level 1 School Fees Imposed On Residential And Commercial/Industrial Development Projects.

Discussion:

Prior to increasing statutory school fees, the District's Governing Board must conduct a public hearing. In January 2020 the State Allocation Board approved an increase in the authorized statutory developer fee, from \$3.79 to \$4.08 per square foot of residential development and from \$0.61 to \$0.66 per square foot for commercial industrial development. Staff believes that the facts set forth in a Developer Fee Justification Report prepared in accordance with Government Code sections 66000, *et seq.*, dated March 2020, for the Center Joint Unified School District ("Report"), are reflective of the student generation rates and amount of future development and costs of school facilities necessary to accommodate students generated from such development.

Action:

Conduct a public hearing relative to the consideration and possible adoption of a resolution by the governing Board of the Center Joint Unified School District entitled "RESOLUTION OF THE GOVERNING BOARD OF THE CENTER JOINT UNIFIED SCHOOL DISTRICT TO INCREASE STATUTORY SCHOOL FEES IMPOSED ON RESIDENTIAL AND COMMERCIAL/INDUSTRIAL DEVELOPMENT PROJECTS PURSUANT TO EDUCATION CODE SECTION 17620 (LEVEL 1 FEES)."

II. Adoption Of A Resolution To Increase Statutory School Fees For Residential And Commercial/Industrial Development

Discussion:

Following a public hearing regarding the possible increase of statutory school fees, staff recommends that the District's Governing Board adopt the Resolution increasing Level 1 Statutory School Fees.

Action:

Adopt the resolution entitled "RESOLUTION OF THE GOVERNING BOARD OF THE CENTER JOINT UNIFIED SCHOOL DISTRICT TO INCREASE STATUTORY SCHOOL FEES IMPOSED ON RESIDENTIAL AND COMMERCIAL INDUSTRIAL DEVELOPMENT PROJECTS PURSUANT TO EDUCATION CODE SECTION 17620 (LEVEL 1 FEES)."

EXECUTIVE SUMMARY

This study finds that the analysis to determine the imposition of fees pursuant to Government Code Section (GC §) 65995 indicates that the Center Joint Unified School District (District) is justified to impose a fee of \$4.08 per square foot of residential construction and \$0.66 per square foot of commercial/industrial development with the exception of self-storage development which should be imposed a fee not to exceed \$0.11.

The relationship between residential development and the need for new school facilities is established by examining the capacity of the District's schools calculated in accordance with methods established in EC §17071.10 et seq., the growth and/or decline of the existing student population, and the need to accommodate future students from new residential construction from which the proposed fees are to be levied, in school facilities funded in whole or in part by the fees imposed. The calculation of students from future development pursuant to GC §65995 et seq. is made by determining the ratio of students to residential units for existing residential development within the district and by multiplying the pupil per dwelling unit ratio by the number of proposed new units to be constructed.

The results of the calculations performed in this report indicate that GC §65995 fees of \$4.08 per square foot of residential construction to be imposed on future residential development will not exceed the total cost of school facilities, land, and land improvement costs related to residential development. The total projected school facility costs from new residential projects are \$57,067,103 for grades TK-12. The total projected statutory fees to be collected from new residential development are \$51,086,700, which are less than the projected costs to mitigate the impact of future residential development. The shortfall is estimated to be \$5,980,403.

The results of the calculations performed in Section F of this report indicate the District is justified in imposing a fee of \$0.66 per square foot on new commercial/industrial development in the District with the exception of self-storage development, which should be imposed a fee not to exceed \$0.11 per square foot, as indicated in Table 19 of this report.

A. NEED FOR ADDITIONAL SCHOOL FACILITIES & FINANCING

Level 1 developer fees may be collected by a school district that justifies the need to collect them. A reasonable relationship should exist between the fee charged and the need for new land and/or school facilities to accommodate students from new development. This study used estimated costs for land, site improvements, and school facilities construction as the basis for estimating the level of need in dollars. These needs were calculated from on a single-family dwelling unit basis based on the current residential construction schedule projected over the next five years.

It is projected that the District will need \$57,067,103 in 2020 dollars to finance projected future needs for TK-12 school facilities based on the current residential construction schedule, current pupil per dwelling unit ratios (Student Yield Rate), and the State School Facility Program (SFP) adopted facilities construction standards. Residential developer fee revenues are projected to be \$51,086,700 for the District, leaving a projected shortfall of \$5,980,403 for financing future needs for the District.

Other projects will include purchase, lease, or rental of relocatable school facilities, interim site improvements at the existing school site, and necessary administrative expenses required to support the land acquisition and facilities construction. In addition to new construction needs, some renovation or reconstruction of the existing facility could be needed to maintain the usefulness of the school for the immediate impact of new students generated by development, prior to the construction of new schools.

In addition to the above costs, developer fees may be used to pay the administrative, legal, architectural, engineering, or other costs associated with implementing the land acquisition, site improvements, school facilities construction and the Developer Fee program.

Developer fees will be used for school construction, reconstruction of existing facilities, and the provision of interim housing as needed.

B. LEGISLATIVE AUTHORITY

In January 2020, the State Allocation Board (SAB) approved an increase in the authorized statutory developer fee from \$3.79 to \$4.08 per square foot of residential development and from \$0.61 to \$0.66 per square foot of commercial/industrial development.

A comprehensive legislative history governing residential and commercial developer fees can be found in the Appendix to this study.

C. DESCRIPTION OF THE DISTRICT

The Center Joint Unified School District provides TK-12 education for a portion of northern Sacramento County as well as a portion of southern Placer County. The District operates six campuses and serves grades TK-12. Table 1 lists the school sites and the current grade configuration.

TABLE 1: District School Campuses and Grades Served in 2019-20 School Year

School	Grades Served
Dudley Elementary	TK-6
North Country Elementary	TK-6
Oak Hill Elementary	TK-6
Spinelli Elementary	TK-6
Wilson Riles Junior High School	7-8
Center High School	9-12

Table 2 calculates the existing capacity of the District's schools computed based on loading standards in the California Code of Regulations, Title II, Section 1859.35 and the current inventory of permanent classrooms within the District, which totals 176 classrooms. However, the District also maintains an inventory of 127 portable classrooms located through the District, which equates to 72% of permanent classroom capacity. For purposes of calculating New Construction funding eligibility, regulations from the Office of Public School Construction (OPSC) state that for districts where the number of portables exceeds 25% of the permanent classrooms, portable classrooms need to be counted in the existing facility capacity. For districts meeting this criterion, the portable classroom "penalty" is set at 25% of the number of permanent classrooms. As the District does meet the threshold for the portable classroom penalty, an additional 19 classrooms in grades TK-6, 7 classrooms in grades 7-8, and 19 classrooms in grades 9-12 must be accounted for. The resulting total existing District capacity is calculated to be 5,779 students.

*From Table 2

Figure 1 shows the District’s enrollment history for grades TK through 12 as reported to the California Department of Education in annual October California Basic Educational Data Systems (CBEDS) enrollment reports for the period of 2008-09 through 2019-20. Since the 2008-09 school year, the District has experienced a decline in enrollment of 1,077 students, or 20% of its enrollment from ten years ago. Major contributing factors to this decline include the closure of the McClellan Air Force Base, which provided a significant amount of local jobs for the Antelope community, and the “Great Recession” which severely impacted home ownership in the area. Over the past five years, this decline in enrollment has slowed; since the 2014-15 school year, the District has lost 326 students, or 7% of its total enrollment. Despite this decline, the District serves almost three times as many students than the reported enrollment of 1,533 when the District unified in 1981.

D. STUDENT YIELD RATE AND POTENTIAL NEW DEVELOPMENT

Existing law requires that a reasonable relationship be established between residential development and the need for fees to mitigate new school construction for students from these new developments. School enrollment forecasters usually establish a relationship between residential development and student enrollment growth. One method for establishing this relationship is the pupil per dwelling unit ratio multiplier model (student yield rate). If an average student yield rate is established over a period of time, multiplying new residential units by the student yield rate will result in a forecasted number of students. Table 4 shows that on average each home is yielding 0.471 students. Although the actual student yield of future new homes could be different, since this is not known, for the purposes of this study, it is reasonable to assume that future new homes could have the same student yield rates as currently exists in the District.

TABLE 4: Residential Unit Student Yield Rate

Grade	2019-20 Enrollment		Occupied District Housing Units		Student Yield Rate
TK-6	2,260	÷	9,040	=	0.250
7-8	647	÷	9,040	=	0.072
9-12	1,348	÷	9,040	=	0.149
Total	4,255	÷	9,040	=	0.471

Source: CBEDS, American Community Survey

The next step is to determine the number of new residential homes that could be constructed within District boundaries. As shown in Table 5 below, an additional 5,565 new residential units are projected to be constructed in the District over the next five years. Based on tentative subdivision maps from developers, these are planned to be low and medium-density units consisting of single-family dwellings.

	Gibson Crossings	213

**Center Joint Unified School District
Level 1 Development School Fee Justification Study**

The third step is to project the number of students from residential development by multiplying the per-housing unit student yield rates from Table 4 to the number of potential new District homes from Table 5. As shown in Table 6, the 5,565 potential new homes could yield 2,619 students during the useful life of the new homes.

TABLE 6: Projected Students from New Residential Development

Grade	Student Yield Rate		Potential New Homes		Projected Students Yielded
TK-6	0.250	x	5,565	=	1,391
7-8	0.072	x	5,565	=	398
9-12	0.149	x	5,565	=	830
Total	0.471	x	5,565	=	2,619

Table 7 compares the number of projected students from Table 6 with the number of available seats from Table 2 to determine the additional capacity required to accommodate new development. Since the District currently has enough excess capacity to fully accommodate the projected 830 high school students resulting from new residential development, no net additional high school capacity is required. However, additional school capacity would need to be added for projected unhoused TK-8 students resulting from projected development, for a total additional projected TK-8 capacity required of 1,429 students.

TABLE 7: Additional Projected School Capacity Required

Grade	Projected Students Yielded		Current Excess Capacity		Additional Projected School Capacity Required
TK-6	1,391	-	90	=	1,301
7-8	398	-	271	=	127
9-12	830	-	1,163	=	(-333)*
			Total	=	1,429

*Excess high school capacity cannot be utilized for lower grades, so the projected 333 excess high school seats are not applied towards the District total

E. FACILITIES COSTS AND RESIDENTIAL DEVELOPER FEE

Since the District’s future plans to accommodate enrollment growth will depend on the actual timing and amount of enrollment growth, for the purposes of this study the cost of providing facilities for each student from new development in excess of capacity is based on the estimated current cost of constructing new school facilities by grade span. As shown in Table 8, using the State’s School Facility Program as a benchmark, the estimated cost is \$39,744 per TK-6 student served and \$42,035 per 7-8

**Center Joint Unified School District
Level 1 Development School Fee Justification Study**

student served. In addition to basic construction costs, these totals include estimated adjustments for site acquisition/development as well as additional planning/soft costs. As indicated in Table 7, since the District has enough excess capacity in grades 9-12 to accommodate new students from planned residential development, additional high school facilities are not required at this time to house students generated from projected development. Actual costs incurred by the District in the future could be materially different based on the actual type and costs of projects undertaken.

Table 9 below multiplies the costs per new unhoused student by the additional capacity the District is estimated to require. In total, the cost for unhoused students to the District is estimated to be \$51,716,349 for the projected unhoused 1,301 grade TK-6 students and \$5,350,754 for the projected unhoused 127 grade 7-8 students. The table demonstrates that unhoused TK-6 students from each new home constructed in the District will cost \$9,293 to accommodate, which equates to \$4.13 per square foot for the estimated average size new home. Unhoused 7-8 students from each new home constructed in the District will cost \$962 to accommodate, which equates to \$0.43 per square foot for the estimated average size new home.

**Center Joint Unified School District
Level 1 Development School Fee Justification Study**

The residential fee required to collect the needed total of \$57,067,103 would be \$4.56 per square foot, which exceeds the statutory maximum Level 1 Fee of \$4.08. Therefore, for residential development occurring within District boundaries, Center Joint Unified School District is able to charge the full amount of \$4.08 per square foot of the current maximum Level 1 residential developer fee. The appropriate fee may be charged on all new residential development to the extent allowed by law.

F. COMMERCIAL/INDUSTRIAL DEVELOPMENT

The current maximum fee for commercial/industrial development authorized by Government Code Section 65995 is \$0.66 per square foot for TK-12 school districts. The rationale for assessing developer fees on commercial/industrial construction is based on the relationship between new residential construction and the resulting demand for businesses to employ the new residents. The following analysis presents the relationship between commercial/industrial development and the need for additional school facilities.

1. Employees Per Square Foot of Development

The number of employees per square foot of development has been established in national and regional surveys. Reference documents and resources used in this analysis are published by the Institute of Transportation Engineers (ITE), American Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE), the National Fire Protection Association, and the San Diego Association of Governments (SanDAG), among others. Table 10 lists employee per square foot standards for various categories of commercial/industrial development projects from the "San Diego Traffic Generators," a report of the San Diego Association of Governments as specified in Education Code Section 17621(e)(1)(B). These standards were determined by years of professional research and have also been widely used across the nation. Impacts for development projects not included on this list may be computed by estimating the uses closest to the actual employee per square foot ratio for the proposed development. The District may supplement this list with additional data to determine the potential impact from project categories not listed.

2. Percentage of Employees Residing within the District

This section addresses the issue of how many of the new employees resulting from commercial/industrial development are likely to live within the District rather than commute from homes in other communities. Table 11 illustrates the employees and residents within the District's territory and indicates that approximately 9.4 percent of individuals working in the District will also reside within the District, based on data from the American Community Survey.

TABLE 11: Place of Employment & Residence

Jurisdiction	Reside In / Work In	Reside In / Work Out
Center JUSD	9.4%	90.6%

Source: American Community Survey

Chapter 172 of the Statutes of 1986 (AB 2071, also known as the Allen Bill) added Section 48204 to the California Education Code. This law allows any parent to request enrollment of his or her elementary age student in the school district where the parent works, an action that affects the participating school districts. New commercial/industrial development will expand the base of workers to whom this new option is available. Complete statistics are not available for the number of students using this option. However, any who do transfer under the Allen Bill will only add to the impact on the District from new commercial/industrial development projects.

3. Number of Homes Per Employee

This section establishes the number of homes that are related to each new employee. Information on the number of homes per resident employee is found in the American Community Survey which indicates that the District has 9,321 year-round housing units and approximately 14,076 employees. This represents 0.662 homes per employed resident, as shown in Table 12 below.

TABLE 12: Housing Units Per Employee

Housing Units within Center JUSD	9,321
Reside In / Work In	1,328
Reside In / Work Out	12,748
Total Employees	14,076
Housing Units Per Employee	0.662

The results of these calculations indicate that, on average, each additional worker will demand 0.662 new or existing housing units. For example, for 1,000 new employees in a given commercial/industrial development, 9.4 percent or 94 employees are likely to reside in the District. These 94 new resident workers will demand an average of 0.662 homes each, for a total demand of 62 additional homes.

4. Cost of School Facilities per Unhoused Student

State costs for housing commercially generated students are the same as those used for residential construction. In addition to construction of school facilities, site acquisition and improvement costs must also be included. Since the District has excess capacity in grades 9-12 and additional high school facilities are not projected to be needed at this time, Table 14 shows the costs per unhoused student in grades TK-8 totals \$81,779.

TABLE 14: Cost of Facilities by Grade Level

Grade	Cost Per Unhoused Student
TK-6	\$ 39,744
7-8	\$ 42,035
TK-8 Total	\$ 81,779
9-12 ¹	\$ 53,485

¹District has significant excess capacity in grades 9-12, so additional high school facilities are not projected to be needed at this time

5. Students Generated Per Employee

Table 15 provides the number of students per employee by dividing the number of District students by the number of employees in the District, as tabulated by the American Community Survey, and provides a ratio of 0.302 students per employee.

TABLE 15: Students Generated per Employee

Students		Employees		Students per Employee
4,255	/	14,076	=	0.302

However, this ratio must be reduced to reflect the percentage of resident workers because only those employees living in the District will impact the District's school facilities with additional enrollment. The resulting calculation in Table 16 provides the ratio of students per resident employee.

TABLE 16: Students Generated per Resident Employee

7. Calculation of Residential Fee Offset

As additional employees are generated by new commercial/Industrial development, residential fees will also be levied on the residential units necessary to house those additional employees residing in the District. A residential offset must be calculated to account for the portion of the commercial/Industrial development fee that will already be paid by the residential fee. In addition to utilizing values previously calculated in this report, the residential offset calculation also requires the percent of new employees resulting from commercial/Industrial development that will occupy new housing units. Since an estimated 3 percent of total housing units are vacant per the American Community Survey, new employees residing in the District can first occupy these vacant units before occupying new housing. Therefore, approximately 97 percent of new employees will occupy new housing units. The residential fee offset is calculated by multiplying the following factors and then dividing the result by 1,000 to provide the offset per square foot, as shown in Table 18.

- Employees per square foot (Table 10)
- Housing units per employee (0.662)
- Percentage of employees residing in District (9.4%)
- Percentage of new employees that will occupy new housing units (97%)
- Average square feet per new residential unit (2,250)
- Level 1 fee (\$4.08)

Table 19 calculates the net school facilities costs generated by a square foot of new commercial/industrial development for each category of development after accounting for the residential fee offset. The result of the calculations presented in Table 19 demonstrates that all categories of commercial/industrial development, except for self-storage, result in a justified fee exceeding the maximum fee rate of \$0.66 per square foot as authorized by Government Code Section 65995.

G. FINDINGS & RECOMMENDATIONS

Level 1 Residential Developer Fees & Commercial/Industrial Developer Fees

1. It has been determined that commercial, industrial, and residential development is projected to occur within the territory of the District.
2. As a result of this development, additional students are projected to enroll in the District's schools.
3. The District's TK-8 schools are projected to become overcrowded as a result of the enrollment of these new students, causing a need for additional school facilities.
4. New school facilities to house these additional students from new residential development within the District are projected to cost \$57,067,103 in 2020 dollars based on the current residential construction schedule, current Student Yield Rate, and SFP adopted facilities construction standards.
5. Residential developer fee revenues are projected to be \$51,086,700 for the District, leaving a projected shortfall of \$5,980,403 for financing future needs for the District.

Recommendations

Based on the findings of this report, the District is justified in imposing a fee of \$4.56 per square foot of residential development. However, existing law (GC §65995 et Seq. and EC §17620) limits the authority of a school district to impose a maximum fee of \$4.08 per square foot of residential development. It is recommended that the District impose a maximum fee of \$4.08 per square foot of residential development and collect a fee for other residential construction not exempt by statute, including an appropriate fee for qualified senior citizen housing projects.

Based on the analysis performed in Section F, it is recommended that the District impose and collect a fee of not more than \$0.66 per square foot from commercial/industrial development, with the exception of self-storage development, which should be imposed a fee of no more than \$0.11 per square foot.

It is further recommended that the Superintendent be authorized to develop implementation procedures to enact this program.

In January of 2000, the State Allocation Board acted to increase statutory developer fees from \$1.93 to \$2.05 per square foot for residential construction and from \$0.31 to \$0.33 per square foot for commercial/industrial construction.

November 1998 Passage of Senate Bill 50 and Proposition 1A

On November 4, 1998, California voters approved Proposition 1A. This action made little revision to the manner in which standard (GC §65995) developer fees are calculated. However, fees in excess of the standard fee were limited to the provisions of GC §§ 65995.5 and .7.

January 1998 State Allocation Board (SAB) action

On January 24, 1996, the SAB approved an increase in the statutory developer fee from \$1.72 to \$ 1.84 per square foot of residential development and \$0.28 to \$0.30 per square foot of commercial/industrial development.

Repeal of ACA 6 (Proposition 170, 1993)

**Center Joint Unified School District
Level 1 Development School Fee Justification Study**

On November 4, 1993, California's voters rejected Proposition 170. As part of this action, the additional fee of \$1.00 per square foot for residential construction authorized by SB 1287 was repealed. On November 5, 1993, the statutory developer for residential development became limited to a maximum of \$1.65. On January 26, 1994, the SAB enacted a once in two-year increase in the statutory fee for inflation that has raised the maximum fee from \$1.65 to \$1.72 for residential construction and from \$0.27 to \$0.28 for commercial/industrial construction.

Senate Bill (SB) 1287

On September 30, 1992, the governor signed into law SB 1287. It contained several provisions that appear to both lay and legal analysts to be ambiguous. Among the more certain provisions of this legislation is the authorization for school districts to collect an additional \$1.00 per square foot residential developer fee, above the already imposed \$1.65 per square foot fee authorized by AB 2926, if it can be substantiated through a fee justification study. The total residential developer fee increase to \$2.65 per square foot became effective statewide on January 1, 1993, and expired with the defeat of Proposition 170.

Assembly Bill (AB) 2926

In September 1986, AB 2926 was signed into law. It authorized school districts to impose a fee of not more than \$1.50 per square foot on residential and \$0.25 per square foot on commercial/industrial development if the school district could establish a finding that additional development projects caused an increased need for school facilities. Developer fees are adjusted for inflation every other year by the SAB, commencing 1990. As of September 30, 1992, the maximum fees were set at \$1.65 per square foot, plus \$1.00 as authorized by SB 1287 effective January 1, 1993, for residential development and \$0.27 per square foot for commercial/industrial development.

Assembly Bill (AB) 1600

AB 1600 established that school districts must satisfy specific criteria and requirements when establishing, increasing, or imposing a fee as a condition of approval of a development project. These criteria and requirements are:

1. The District must identify the purpose and use of the fee.
2. The District must establish a reasonable relationship between the *fee's use* and the *type of development* on which the fee is imposed, including a determination of a reasonable relationship between the need for additional school facilities and the type of development on which the fee is imposed.
3. The District must establish a reasonable relationship between the *amount* of the fee and the *cost* of the additional school facility, portion of the additional school facility, or reconstructed school facility with expanded pupil capacity caused by the development on which the fee is imposed.
4. The District must make a report each fiscal year regarding any portion of the fee remaining unexpended or unencumbered for five or more years after deposit.

Assembly Bill 181

**Center Joint Unified School District
Level 1 Development School Fee Justification Study**

AB 181 imposed the following changes and additional requirements for school districts imposing or increasing developer fees:

1. School districts may, after conducting a study of employee generation factors within the district, establish commercial/industrial fees on categories of projects or on a case-by-case basis.
2. School Facility Fees may not be used for the "purposes of deferred maintenance," for routine maintenance, or for removal of asbestos – except as part of an eligible project.
3. Adoption of School Facilities Fees by the Board of Education is exempt from the California Environmental Quality Act (CEQA) (Government Code Section 53080. 1, added by Chapter 1209, Statutes of 1989).
4. The school district's governing board must establish a process to allow appeals of the imposition of developer fees.

Other legislation regarding developer fees provides that:

1. Developer fees are to be isolated in a capital facilities fund account. These fees, and any income earned on these fees (i.e., interest), may be used only for the purposes for which they were collected (Government Code Section 53077).
2. School districts may charge a fee on mobile homes if:
 - a. the fee is levied only on the initial installation of the mobile home in the district,
 - b. a mobile home has not been on the pad previous to the mobile home upon which fees are being levied, and
 - c. construction of the pad upon which the mobile home is to be placed had been started subsequent to September 1, 1986.
3. AB 2071, passed into law by the legislature, allows a parent living in one community and working in another to request enrollment for the elementary student in the district in which they work as opposed to the district in which they reside, adding additional pressure on school districts. The district's opportunity to reject these requests is limited. Thus, increasing commercial/industrial development can have a very significant impact upon the district in the event that people working in the new commercial, industrial or entertainment (recreational) centers will be able to make these requests.
4. School districts must first hold a public hearing before adopting or increasing any fee. The public hearing must be part of a regularly scheduled meeting of the governing board and notice of the meeting must be published twice, in accordance with Government Code Section 6062a. (Government Code §66018).
5. Notice of the public hearing, and a statement that certain required information is available, must be mailed at least fourteen days prior to the public hearing to any interested party requesting written notice of meetings for new or increased fees.
6. At least ten days prior to the public hearing, the district must make available to the public certain data as required by Government Code Section 66016.
7. The District must also wait for a period of 60 days before implementing the developer fees that it imposed by governing board adoption. An emergency resolution may be used under special circumstances to shorten the waiting period.

RESOLUTION NO. 14/2019-20

RESOLUTION OF THE GOVERNING BOARD OF THE CENTER JOINT UNIFIED SCHOOL DISTRICT TO INCREASE STATUTORY SCHOOL FEES IMPOSED ON RESIDENTIAL AND COMMERCIAL/INDUSTRIAL DEVELOPMENT PROJECTS PURSUANT TO EDUCATION CODE SECTION 17620 (LEVEL 1 FEES)

WHEREAS, the Governing Board ("Board") of the Center Joint Unified School District ("District") provides for the educational needs for K-12 students within its boundaries; and

WHEREAS, the Board of the District has previously adopted and imposed statutory school fees ("Statutory School Fees) pursuant to Education Code sections 17620, *et seq.*, and Government Code sections 65995, *et seq.*, ("School Fee Legislation") in the amounts of \$3.79 per square foot of assessable space of residential development in the District, and \$0.61 per square foot of commercial/industrial development in the District; and

WHEREAS, the State Allocation Board has taken action pursuant to Government Code section 65995(b)(3), which authorizes school districts to increase statutory school fees to \$4.08 per square foot for assessable space of residential development and \$0.66 per square foot of chargeable covered and enclosed space for all categories of commercial/industrial development, with the exception of self-storage development which should be imposed a fee not to exceed \$0.11, within the boundaries of the district, as long as such increases are properly justified by the District pursuant to law; and

WHEREAS, residential and commercial/industrial development continue to generate additional students for the District's schools and the District is required to provide school facilities ("School Facilities") to accommodate those students; and

WHEREAS, overcrowded schools within the District have an impact on the District's ability to provide an adequate quality education and negatively impacts the educational opportunities for the District's students; and

WHEREAS, the District does not have sufficient funds available for the construction or reconstruction of the School Facilities to accommodate students generated from residential or commercial/industrial development; and

WHEREAS, the Board of the District has received and considered a report entitled Justification Report for the Center Joint Unified School District prepared by Caldwell Flores Winters, Inc., in accordance with Government Code sections 66000, *et seq.*, ("Report"), which Report includes information, documentation, and analysis of the School Facilities needs of the District, including (a) the purpose of the Statutory School Fees; (b) the use to which the Statutory School Fees are to be put; (c) the nexus (roughly proportional and reasonable relationship) between residential and commercial/industrial development and the following: (1) the use for Statutory School Fees; (2) the need for School Facilities; (3) the cost of School Facilities and the amount of Statutory School Fees from residential and commercial/industrial development; (d) a determination of the impact of the increased number of employees anticipated to result from the commercial/industrial development (by category) upon the cost of providing School Facilities within the District; (e) an evaluation and projection of the number of students that will be generated by residential development; (f) the new School Facilities that will be required to serve such students; and g) the cost of such School Facilities; and

WHEREAS, said Report pertaining to the Statutory School Fees and to the capital facilities needs of the District was made available to the public, as required by law, before the Board considered same at a regularly-scheduled public meeting regarding the proposed increases in the Statutory School Fees; and

WHEREAS, all required notices of the proposed increases in the Statutory School Fees have been given; and

WHEREAS, a public hearing was held at a regularly-scheduled meeting of the Board of the District relating to the proposed increases in the Statutory School Fees; and

WHEREAS, Education Code section 17621 provides that the adoption, increase or imposition of any fee, charge, dedication, or other requirement, pursuant to Education Code section 17620 shall not be subject to Division 13 (commencing with section 21000) of the Public Resources Code.

NOW THEREFORE, be it resolved by the Board of the Center Joint Unified School District as follows:

1. That the above recitals are true and correct.
2. That the Board accepts and adopts the Report.
3. That the Board finds that the purpose of the Statutory School Fees imposed upon residential development is to fund the construction and or reconstruction of School Facilities as authorized pursuant to the School Fee Legislation which is required to serve the students generated by the residential development upon which the Statutory School Fees are imposed.
4. That the Board finds that the Statutory School Fees imposed on residential development will be used only to finance those School Facilities described in the Report and related documents, and that these School Facilities are required to serve the students generated by the residential development within the District; and that subject to any limitations set forth in the School Fee Legislation, the use of the Statutory School Fees will include construction or acquisition of School Facilities, remodeling existing School Facilities, the addition of technology, and acquiring and installing additional portable classrooms and related School Facilities, with the specific location of new schools, remodeling of existing School Facilities, and additional portables to be determined based on the residence of the students being generated by such residential development, as well as any required central administrative and support facilities within the District plus any studies authorized pursuant to Education Code section 17620(a)(5).
5. That the Board finds that there is a roughly proportional, reasonable relationship between the use of the Statutory School Fees and the residential development within the District, because the Statutory School Fees imposed on residential development by this Resolution will be used to fund School Facilities which will be used to serve the students generated by such residential development.
6. That the Board finds that there is a roughly proportional, reasonable relationship between the residential development upon which the Statutory School Fees are imposed and the need for School Facilities in the District, because new students will be generated from residential development within the District and the District does not have student capacity in the existing School Facilities to accommodate these students.

7. That the Board finds that the amount of the Statutory School Fees levied on residential development as set forth in this Resolution is roughly proportional and reasonably related to, and does not exceed the cost of, providing the School Facilities required to serve the students generated by such residential development within the District.

8. That the Board finds that the purpose of the Statutory School Fees imposed on new commercial/industrial development is to fund School Facilities required to serve the students generated by the new commercial/industrial development upon which the Statutory School Fees are imposed.

9. That the Board finds that the Statutory School Fees imposed on new commercial/industrial development (by category) will be used only to finance those School Facilities described in the Report and related documents and that subject to any limitations set forth in the School Fee Legislation, these School Facilities are required to serve the students generated by such new commercial/industrial development; and that the use of the Statutory School Fees will include construction or acquisition of additional School Facilities, remodeling existing School Facilities, the addition of technology, and acquiring and installing additional portable classrooms and related facilities, with the specific location of new schools, remodeling of existing School Facilities, and additional portables to be determined based on the residence of the students being generated by such new commercial/industrial development, as well as any required central administrative and support facilities within the District plus any studies authorized pursuant to Education Code section 17620(a)(5).

10. That the Board finds that there is a roughly proportional, reasonable relationship between the use of the Statutory School Fees and new commercial/industrial development by category within the District, because the Statutory School Fees imposed on commercial/industrial development by this Resolution will be used to fund School Facilities which will be used to serve the students generated by such new commercial/industrial development.

11. That the Board finds that there is a roughly proportional, reasonable relationship between the commercial/industrial development by category, upon which the Statutory School Fees are imposed, and the need for additional School Facilities in the District because new students will be generated from commercial/industrial development within the District and the District does not have student capacity in the existing School Facilities to accommodate these students.

12. That the Board finds that the amount of the Statutory School Fees levied on commercial/industrial development by category as set forth in this Resolution is roughly proportional and reasonably related to, and does not exceed the cost of, providing the School Facilities required to serve the students generated by such commercial/industrial development within the District.

13. That the Board find that a separate account has been established for the deposit of Statutory School Fees imposed on residential and commercial/industrial development and that said account has at all times since been separately maintained, except for temporary investments, from other funds of the District.

14. That the Board finds that the funds of account, described in section 13, consisting of the proceeds of Statutory School Fees have been imposed for the purposes of constructing and reconstructing those School Facilities necessitated by new residential and commercial/industrial development and, thus, these funds may be expended for those purposes. The Statutory School Fees may also be expended by the District for the costs of performing any study or otherwise

making the findings and determinations required under subdivisions (a), (b), and (d) of section 66001 of the Government Code. In addition, the District may also retain, as appropriate, an amount not to exceed in any fiscal year, three percent (3%) of the fees collected in that fiscal year pursuant to Education Code section 17620 for reimbursement of the administrative costs incurred by the District in collecting the Statutory School Fees.

15. That the Board hereby increases the Statutory School Fees as a condition of approval for residential development projects and imposes the Statutory School Fees as a condition of approval for residential development projects and imposes the Statutory School Fees on such development projects in the following amounts:

a. \$4.08 per square foot of assessable space for residential construction as set forth in Education Code section 17620(a) (1)(B)(C) and (D), including new residential construction; other residential construction; and manufactured homes and mobile homes as authorized under Education Code section 17625, except for any construction described in Government Code sections 65995.1 and 65996.2 ("Senior and Migrant Worker Housing").

b. \$0.66 per square foot of assessable space (as defined in the School Fee Legislation) for Senior and Migrant Worker Housing.

16. That this Board hereby increases the Statutory School Fees as a condition of approval of commercial/industrial development projects and levies the Statutory School Fees on such development projects in the following amounts per square foot of chargeable covered and enclosed space (as defined in the School Fee Legislation):

a. \$0.66 per square foot for commercial/industrial development.

b. \$0.11 per square foot of assessable space for self-storage development.

17. That the proceeds of the Statutory School Fees increased and established pursuant to this Resolution shall continue to be deposited into that account identified in section 13 of this Resolution, the proceeds of which shall be used exclusively for the purpose for which the Statutory School Fees are to be collected, including accomplishing any study, findings or determinations required by subdivisions (a), (b) and (d) of section 66001 of the Government Code or retaining an amount not to exceed in any fiscal year three percent (3%) of the fees collected in that fiscal year, pursuant to Education Code section 17620 for reimbursement of the administrative costs incurred by the District in collecting the Statutory School Fees, or in financing the described Report or in defending the imposition of Statutory School Fees.

18. That the Superintendent, or his or her designee, is directed to cause a copy of this Resolution to be delivered to the building official of the cities within the District's boundaries and the county along with a copy of all the supporting documentation referenced herein and a map of the District clearly indicating the boundaries thereof, advising the cities and county that new residential and commercial/industrial development is subject to the Statutory School Fees increased and readopted pursuant to this Resolution and requesting that no building permit or approval for occupancy be issued by any of these entities for any residential development project, mobile home or manufactured home subject to the Statutory School Fees absent a certification from this District of compliance of such project with the requirements of the Statutory School Fees, nor that any building permit be issued for any non-residential development absent a certification from this District of compliance with the requirements of the applicable Statutory School Fees.

19. That the Board hereby establishes a process that permits the party against whom the commercial/industrial Statutory School Fees are imposed, the opportunity for a hearing to appeal that imposition of Statutory School Fees for commercial industrial development as required by Education Code section 17612(e)(2). The appeal process is as follows:

(a) Within ten (10) calendar days of being notified, in writing (by personal delivery or deposit in the United States Mail), of the commercial industrial Statutory School Fees to be imposed or paying the commercial industrial Statutory School Fees, pursuant to Education Code section 17620, a party shall file a written request for a hearing regarding the imposition of commercial/industrial Statutory School Fees. The party shall state in the written request the grounds for opposing the imposition of commercial/industrial Statutory School Fees and said written request shall be served by personal delivery or certified or registered mail to the Superintendent of the District.

(b) The possible grounds for that appeal include, but are not limited to, the inaccuracy of including the project within the category pursuant to which the commercial/industrial Statutory School Fees are to be imposed, or that the employee generation or pupil generation factors utilized under the applicable category are inaccurate as applied to the project.

(c) Within ten (10) calendar days of receipt of the written request for a hearing regarding the imposition of commercial/industrial Statutory School Fees, the Superintendent of the District, or his or her designee, shall give notice in writing of the date, place and time of the hearing to the party appealing the imposition of commercial/industrial Statutory School Fees. The Superintendent, or his or her designee, shall schedule and conduct said hearing within thirty (30) calendar days of receipt of the written request. The Superintendent, or his or her designee, shall render a written decision within ten (10) days following the hearing on the party's appeal and serve it by certified or registered mail to the last known address of the party.

(d) The party against whom the commercial industrial Statutory School Fees are imposed may appeal the Superintendent's, or his or her designee's, decision to the Board of the District.

(e) The party appealing the Superintendent's, or his or her designee's decision shall state in the written appeal the grounds for opposing the imposition of the commercial/industrial Statutory School Fees, and said written appeal shall be served by personal delivery or certified or registered mail to the Superintendent of the District.

(f) the possible grounds for that appeal to the Board of the District include, but are not limited to, the inaccuracy of including the project within the category pursuant to which the commercial industrial Statutory School Fees are to be imposed, or that the employee generation or pupil generation factors utilized under the applicable category are inaccurate as applied to the project.

(g) Within ten (10) calendar days of receipt of the written request for a hearing regarding the imposition of commercial industrial Statutory School Fees, the Superintendent of the District, or his or her designee, shall give notice in writing of the date, place and time of the hearing to the party appealing the imposition of commercial/industrial Statutory School Fees. The Board of the District shall schedule and conduct said hearing at the next regular meeting of the Board, provide that the party is given notice at least five (5) working days prior to

the regular meeting of the Board. The Board shall render a written decision within ten (10) days following the hearing of the party's appeal and serve the decision by certified or registered mail to the last known address of the party.

(h) The party appealing the imposition of the commercial/industrial Statutory School Fees shall bear the burden of establishing that the commercial/industrial Statutory School Fees are improper.

20. That the Superintendent is authorized to cause a certificate of compliance to be issued for each development project, mobile home and manufactured home for which there is compliance with the requirement for payment of the Statutory School Fees in the amount specified by this Resolution. In the event a certificate of compliance is issued for the payment of Statutory School Fees for a development project, mobile home or manufactured home and it is later determined that the statement or other representation made by an authorized party concerning the development project as to square footage is untrue, then such certificate shall automatically terminate and the appropriate city shall be so notified.

21. That no statement or provision set forth in this Resolution, or referred to therein shall be construed to repeal any preexisting fee previously imposed by the District on any residential or nonresidential development. Notwithstanding the preceding, if the District adopts alternative school facilities fees for new residential construction pursuant to Government Code sections 65995.5, 65995.6 and/or 65995.7 ("Alternative School Facilities Fees"), the District is hereby authorized to collect the Alternative School Facilities in lieu of the Statutory School Fee with respect to new residential construction. If the Alternative School Facilities Fees should lapse or be terminated, then the Statutory School Fees shall be collected for new residential construction at the amount set forth in this Resolution.

22. That the increase in the Districts Statutory School Fees will become effective on June 14, 2020, unless a separate resolution increasing the fees immediately on an urgency basis is adopted by the Board.

ADOPTED, SIGNED AND APPROVED this 15th day of April, 2020.
